	\$34,502.24
Property & Debt	
Assets	3,201.43
	\$3,201.43

When will I use it?

- To navigate throughout the product and to discover new functionality
- To increase your workspace

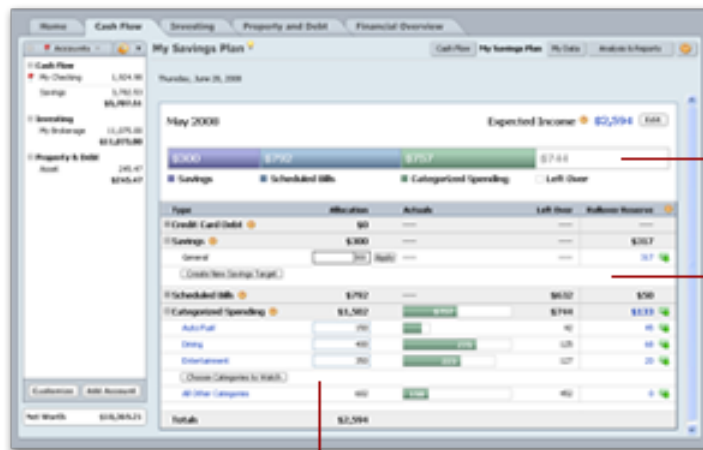

How will I use it?

- Click the top tabs
- Collapse or expand the Account Bar

My Savings Plan

My Savings Plan

Keep track of your spending and set savings targets that you can reach.

Status Bar

Get a quick snapshot of what you've spent and what's left over.

Savings

Track your progress toward savings targets like your next vacation or buying a new TV.

Categorized Spending

Manage your everyday expenses – change allocations if you need to cut back or want to spend more in specific categories.

When will I use it?

- To see how your expenses are looking for the month
- To track your progress toward a savings target, like planning the next vacation or buying a car

How will I use it?

- Select categories to track the areas you want to watch closely
- Set short term savings targets

Categorization and Tagging

Step 1 Click a transaction in your register.

Step 2 Categorize the transaction.

Step 3 Add more details about the transaction with tagging.

When will I use it?

- To categorize transactions so you can track your spending and maximize your tax deductions
- To tag your transactions to add more details

How will I use it?

- Within the register, click the icons in the category and tag fields

More Financial Institutions and New Account Types

The image shows a screenshot of the Quicken software interface. On the left, a sidebar lists account types: Cash Flow, My Checking, PayPal, and Savings. A red circle highlights the 'Add Account' button in the bottom right corner of the main window. Below this, a separate 'Add Account' button is shown with a hand cursor pointing to it. To the right, a 'Quicken Account Setup' dialog box is open, displaying a list of financial institutions. The 'PayPal' option is selected and highlighted in blue. The dialog box also includes a 'Cancel' button and a 'Next' button.

More Financial Institutions and New Account Types – 529 and PayPal

Click “Add Account” from the account bar to set up Quicken to track your data from new account types like 529 and PayPal.

When will I use it?

- Update transactions from even more of your account types including 529 and PayPal accounts

How will I use it?

- Start by clicking “Add Account” on the Account Bar

Business Center and Tax Snapshot

Note: Only available in Quicken 2008 Home & Business.

Quicken Billminder Gadget

Quicken Billminder Gadget

Get reminders of upcoming bills and scheduled payments, directly from your Desktop – even if Quicken is not open.

When will I use it?

- To always stay on top of your bills and scheduled transactions

How will I use it?

- When you set up all your recurring bills and payments in Quicken, the Billminder Gadget will remind you of what's coming up, or what you may have missed from your desktop.

Note: Only available in the Vista operating system for Quicken 2008 Deluxe, Premier, and Home & Business.
